DVRCDJ2 Remote Keyboard

INNOVATION FITTED AS STANDARD

DESCRIPTION

The DVRCD-KB allows remote control of the full range of Videcon JPEG 2000 DVR units. The front panel of the JPEG 2000 DVR, including jog / shuttle wheel, is fully replicated on the keyboard so that all functions can be accessed.

Using the DVRCD-KB means that the DVR can be locked away securely to prevent theft / tamper, yet full control is still available.

The keyboard is also ideal when a second operator needs to control the DVR from a different location.

KEY FEATURES

- Compact, desktop style keyboard
- All DVR functions available remotely
- Can be located up to 900m away from the DVR using standard CAT-5 cabling
- Works simultaneously with the DVR front panel allowing control by two operators

Digital Recorders

- DVRCDJ2-4 - 4 Channel Recorder
- DVRCDJ2-8 - 8 Channel Recorder
- DVRCDJ2-16 - 16 Channel Recorder

All DVRCDJ2 Digital Recorders come complete with 160Gb, 250Gb, 500Gb or 1Tb HDD's
